Chasing the Grid

An Ultrarunner's Physical and Spiritual Journey in Pursuit of the Ultimate Mountain Challenge

Kenneth Posner

Summary

Discover the transformational journey of a conventional-minded runner to a minimalist, mountain-climbing, adventure-seeking ultrarunner determined to conquer the Catskill Mountains challenge known as the "Grid."

After a successful career on Wall Street, the Catskill Mountains beckoned. In *Chasing the Grid*, author Kenneth Posner, a seasoned corporate worker and intrepid but non-elite runner, sets out after an ultra-distance mountain-running record which nearly destroys him. Along the way, he stumbles upon an obscure peak-bagging tradition known as the "Grid," which becomes his new obsession.

The Grid is a project where a determined athlete must run, hike, or climb a list of peaks in every month of the year, the purpose being to get to know the mountains intimately, in every season. For New York's Catskill Mountains, where this story takes place, the formula requires more than 400 separate ascents. For Posner, the Grid turns out to be not just another running challenge; it's a pilgrimage. It offers a retreat from the spirit of modern running, often reduced to a one-dimensional activity d...
